

Use of Open Spaces by fitness and other organised groups

1. Introduction

It has become more and more popular for our Open Spaces to be used by organised groups of people, usually under the direction of a leader, to run, exercise, and operate other forms of physical activity.

2. General rules that apply to all groups

1. All groups of 15 or more should complete the 'Open Space Group User' form, which requires basic information about the group. Copies are available from the Parish Council office or the website www.headleypc.co.uk
2. All groups of 4 – 14 should inform the Parish Council of their existence for reference only. No official registration is required for these groups.
3. Any group discovered, who has not registered their activity with the Parish Council, will be asked to register immediately.
4. All groups must have their own liability and professional indemnity insurance.
5. All groups are required to undertake a risk assessment for their activities.
6. All serious injuries requiring medical attention are to be reported to the Parish Council Clerk within 24 hours.
